

Agenda:

- upcoming summit
- fb: Final microserver spec
- fb: 1s spec
- Ms: Power supply spec

Notes:

- Summit
 - o Room for all submitted presentations, but full.
 - o Agenda tentative next week.
 - o
- F2F 2/17 committee leads
 - o How do we raise adoption of OCP hardware?
 - Ensuring Solutions Providers can provide robust offerings at competitive prices.
 - o Setting expectations for certification.
- Specs
 - o Mezz 2.0, files still say draft -> follow up with Jia to get the final.
 - Need to provide documentation for test results & reports. How to test?
 - Tying into Service providers to create a qualified solution.
 - Put a list of tested products against the spec...
 - OCP will be putting a testing process in place and enforcing it. Up to us to help build that test plan. New tests vs. documentation of existing test results. Need to streamline process to get products to market.
 - What is OCP role in certification? Not to become an OEM. What about Plug-Fests at labs, UNH, or other?
 - o Microserver v1.0
 - <http://files.opencompute.org/oc/public.php?service=files&t=ad44fa3d5b3361fc74bb3cec932979b4>
 - o 1S Server SoC Card
 - <http://files.opencompute.org/oc/public.php?service=files&t=433afe70a17e23746c070db483034d58>
 - o OCS Power Supply + Battery Backup

- <http://files.opencompute.org/oc/public.php?service=files&t=4bb682624927b315b4f3d8a30f022c19>

-

- Next committee meeting?

- Normally 3rd week in march, the week after summit. March's meeting is Cancelled.
- Next meeting April 15th 9PT

- April Server Committee
